Ribbon Glads for 1952

First of all, I wish to thank my customers for their patronage and for their favorable comments in regard to the quality of stock received and service rendered. I shall be glad to know if at any time our service and quality do not warrant your utmost satisfaction.

All our stock is hand cleaned, graded and washed. We make a special effort to supply quality stock and a check with any of our customers will convince you that your order will receive prompt service and just treatment. They also know that any favorable changes in prices or discounts offered by reputable growers is taken care of by overcount and extras.

Dip and Spray

Dip the bulbs before planting in one tablespoon of Lysol mixed thoroughly with one gallon of water. Let them soak for 3 hours immediately preceding planting.

Spray your glads weekly after foliage is in the third leaf to kill thrips. Two ounces of tartar emetic, six ounces of brown sugar. Mix well with three gallons of water.

Discounts and Postage

On all retail orders our policy is and has been as noted below under Terms and Conditions. To our knowledge all customers have been more than satisfied. Since the current trend of most reputable cataloguers has been to a bonus listed discount, we are glad to let all old or new customers, who wish, choose their own extras on the following basis. This will in no way effect our liberal policies of the past. The discounts cannot be used in conjunction with any 1951 Introductions, wholesale prices or collections.

On orders of \$15.00 or less you can select 15% extra in bulbs of your own choosing. On all orders over \$15.00 select 20%. If postage is paid with the order you will certainly get your value in additional extras.

Terms and Conditions

Minimum order \$3.00. Orders are prepaid. Payment in full before delivery of order. Please do not use currency for payment by mail. Extra bulbs or overcount on all orders. My customers say this is more satisfactory than a complicated discount and certainly more interesting.

Illinois State Department of Agriculture inspected flowers and bulbs.

Every precaution has been taken to send out only healthy bulbs true to name but no guarantee of growth or responsibility of the crop is included in the sale. A refund of the purchase price will be made on any order found unsatisfactory upon receipt and promptly returned.

Purchasers should examine express shipments carefully so as to file claim if received in damaged condition. All orders sent by mail at my own risk.

Early orders are the best policy and please do not send any orders for bulbs after April 15th, 1952.

Order accepted subject to stock, and subject to being filled in numerical sequence. This listing cancels all previously listed prices.

It is with great pleasure I submit to you the following list with my best wishes for your success and a good growing season for this year. Remember an early order helps you and gives me more time to put in extras and to make an extra count.

1952 Introductions

Howard

V.

Wright
(Kadel)

This is a bright yellow with a somewhat deeper throat. It opens light 5" florets with five more showing color on a 20-bud spike. Length of flowerhead is 29". Its wide open florets have plain, swerved petals.

Plant is strong and vigorous with broad deep green foliage. Bulb production and germination are excellent. It blooms in 82 days.

Awards: 1949, "A" rating and best seedling, Keystone.

1950, "A" rating at Maryland.

1951, American Home Achievement Medal, Maryland and Eastern International.

One bulb any size \$5.00; One bulb and ten bulblets \$10.00.

1952 Introductions

Voo-Dun-It (Kadel)

The color of Voo-Dun-It is best described as a light mahogany shading thru tan to a yellow throat. There is a mahogany strippling on the yellow throat. These clean, unusual colors combine with the floret form to make it a distinctive glad. The wide-open florets, with heavy substance, are quite ruffled and needlepoint. Blooms in 70 days in class 490. It opens six 4¼ inch florets with seven more showing color on a 17-bud spike.

It has received great public approval for the few times it was shown and lack of significant awards. Novelties have a way of doing this.

Any size bulb \$3.00; One bulb and ten bulblets \$6.00.

Tomahawk (Graff)

A very lovely shade of scarlet with just enough red in it to make the florets outstanding. There is a tendency for recurvment and frilling on the outer edges of the petals. It opens very well in water from all types of bulbs and all stages of cutting. It blooms very well from bulblets, stands straight on a willowy stem with good placement and green healthy foliage. Tomahawk blooms in about 85 days. The flower head is 28 inches in length, with a total of 20 buds. It has a very firm attachment which is desirous of any good gladiolus. Bulblet production, very good with good germination.

Each, Large, \$2.50; Med., \$2.00; Small, \$1.50. Ten bulblets, \$2.50; 100 bulblets, \$20.00.

1952 Introductions

Pauline (G. W. Wright, Gove)

A 400 class pure white. White glads have always been my favorites and we believe that this co-introduction releases one of the best all around whites on the market. It is a fine grower and propagator and opens well in water. There are many whites now on the market but we believe this is it.

A tall 55" sturdy grower. 5¼" slightly ruffled florets, 9 open and 7 in color, with a 24" to 28" flower head and it blooms in 90 days.

Number 50346, Pauline, received an award of merit in the Canadian test Gardens where it scored 92. It has always won many prizes during the past 2 years but we believe its main value will be as a commercial variety.

Any size bulb \$3.00; One bulb and ten bulblets \$6.00.

Alexius (Torrie-Flad)

Looks like an excellent cutter in the dark 470 class. A Burma and Purple Supreme cross. The originators are very well pleased with its commercial possibilities. A good cutter of long spikes with many open. May prove to be a run-away propagator.

Each; Large, \$2.00; Med., \$1.50; Small, \$1.00. Bulblets, 10 for \$2.00.

C. D. FORTNAM

CLARENCE D. FORTNAM (Kadel)

"CLARENCE D. FORTNAM" is a glad with a statuesque beauty, blush pink in color. Its 5" florets, heavily ruffled and needlepoint, are borne on a 24" flowerhead with 8 of its 21 buds open and another 8 showing color. The champion spike at the 1949 Maryland show held 10 open on the second day. The height of the plant in the field is 56". It blooms in 90 days from bulbs taken directly from cold storage. Bulb production and germination are excellent. Its heavy substance, tight attachment and ability to open when cut make it a promising cutflower. As an exhibition variety its show record speaks for itself.

1948: Voted "most beautiful" at Eastern International Show. Winner of American Home Achievement Medal at both the Keystone State and Maryland shows.

1949: Grand champion at Maryland show. Best spike in open division, and "most beautiful" at the Eastern International Show. "Most beautiful" at Lima Show.

FORMALITY (Kadel)

FORMALITY is a blush lavender in color with a cream throat. The 4" florets with re-curved petals are close-set without crowding. This gives the spike a quite formal appearance, especially so when 8 to 10 florets are open at one time. The 24" flower head carries up to 22 buds. Because of its precise form and habits we believe it will be hard to beat on the show table in the 300-section. Propagation is excellent. Blooms in 88 days from cold storage.

Large, 1 for 50c; Med., 1 for 40c; Small, 1 for 30c. Bulblets, 10 for 50c; 100 for \$4.00.

INVITATION (Kadel)

This Rosa Van Lima pink glad is a sister seedling of Formality. The color of the florets is very good and the plant grows to medium height. It is not a large glad but may prove its worth commercially. Mother Kadel, one of its seed parents, has given this glad many fine commercial qualities. It propagates very well.

Small Unit: 8 Large, 8 Med., 8 Small, 100 Blts. for \$5.00.

KEVIN (Graff)

We like Cynthia for an early yellow and believe you will like Kevin with its large sized 410 class florets for a mid-season commercial with a little more color value than Crinkle-cream.
